

QUALITAIR

NEW

Packaged In-Wall Cassette

3.5 Kw Total Cooling Capacity †
LPHW Heating Facility and Control Valve

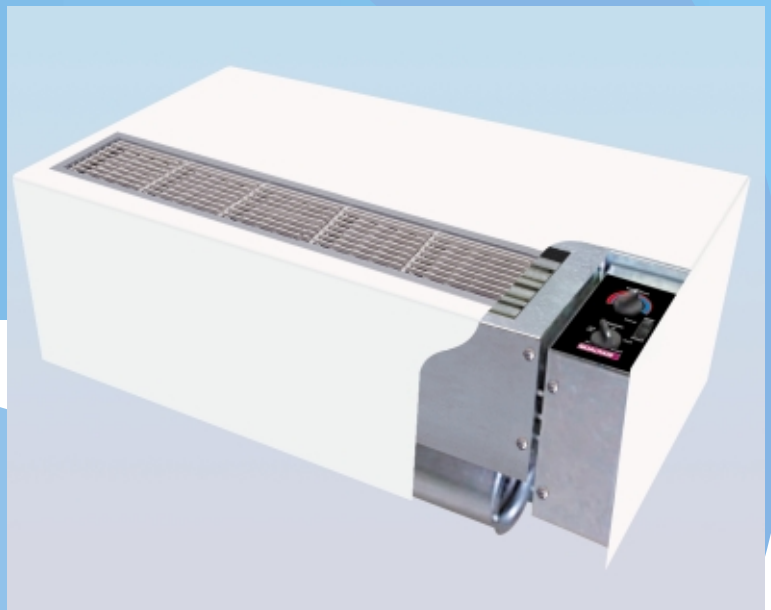

Plug into Standard 230V 1Ph 50Hz

Quiet Operation

The Qualitair QPC unit is a fully packaged and charged unit for 'Plug-in' and 'Switch-on' installation. It can be provided in a colour co-ordinated cabinet/wall sleeve with outdoor architectural louvre.

The QPC unit is suitable for offices, leisure and domestic applications (conservatories), as it only needs a standard 230V 1Ph 50Hz power supply.

† Duty at 27°C db / 19°C wb

Features:

- Automatic changeover control thermostat for cooling / heating.
- User selectable electro / mechanical fresh air damper.
- Full evaporator frost and low condenser ambient protection including fresh air damper override.
- 'Slinger Ring' type condenser fan for efficient re-evaporation of condensate into condenser air stream.
- Emergency standby power supply option available giving reduced functionality.
- Power requirements: 230V 1Ph 50Hz; FLC 6.5A, standard unit; FLC 1.5A, whilst on standby supply (option).
